

Aude Harou has been working as an education specialist and project designer in Morocco since 2015 for CARE International Morocco, the Zakoura Foundation, and the British Council. She is certified by the British Council to teach the Core Skills: (1) Creativity and Imagination, (2) Critical Thinking and Problem-Solving, (3) Citizenship, (4) Student Leadership, (5) Digital Literacy, (6) Communication and Collaboration. Aude is also certified by the Centre of Experiential Education of the University of Leuven on the « Process-oriented Approach to Quality in Early Childhood Education ». Aude has a Masters from the School of Foreign Service at Georgetown University, where she specialized in Education and immigration policy. She has worked for several think tanks, NGOs including one in Romania that promoted « Preschool for every child », the World Bank in the context of designing an impact evaluation for the former preschool program, and has taught both English and French literature and Drama in British and international schools. Aude was also the President of the Cooperative Preschool in Washington D.C., where her children attended preschool several years.

1. Background: I attached my bio
2. Role of the team members: I joined the team – Scale X Design of CARE Morocco to bring my expertise in education, curriculum design, and project development. The focus of my role in the team will be assisting the team in offering state-of-the art practices in preschool education, and partnership building.
3. Accommodations for the participants: I don't need any particular assistance
