

Adnane LAAKEL
Manager of project

Manager of all the early education projects for CARE International Morocco, their organization and the rollout of the activities. I ensure a good communication and coordination between the team members and that all the official and institutional partners are all well considered in our projects to set up a sustainable project.

I have a long experience in project development and management including as a team leader, specially to reinforce local organizations in the early education field and the improvement of the social economical status of women in disadvantaged and precarious situations.

Graduated in applied foreign languages, I have a professional training with the Spanish Agency of International Cooperation Development as a project manager. Thus, I extended my skills in management: administrative, financial, audit, risks, assessment and communication, related to development projects.

1. Background: I attached my bio
2. Role of the team members: I joined the team – Scale X Design of CARE Morocco to bring my expertise in project development and management of education in the Moroccan context.
3. Accommodations for the participants: I don't need any particular assistance.
